Objectives and Scope of work

With this request for proposal, it is proposed to gather information from Indian Firms/ Institutions/ Organizations/private to provide Services for Chemical profile for Air pollutants assessment in Source apportionment study in Dewas City. The partner organization will provide services to MANIT, Bhopal.

MANIT, Bhopal invites interested parties to submit an RFP to become a partner in the PM chemical profiling as per project needs. The applicant is expected to understand the specific needs of the project in this endeavor and come up with a complete plan. The Applicant should not keep itself from taking initiatives and interacting with the concerned officials/scientists/institutions/body that plays a role in delivering the data and information for this task.

Technical Proposal Content

1. Detailed Methodology. The rationale for the above and how the proposed content and methodology will meet the project's objectives. Online presentation by bidders shall be conducted to assess the methodology.

The scope of work for the particulate matter (PM) chemical profiling includes the following key activities:

2. Chemical Analysis:

- a. Detailed laboratory analysis of collected PM samples to determine chemical composition, including but not limited to:
 - i. Elemental and organic carbon (EC/OC)
 - ii. Trace metals (e.g., lead, arsenic, mercury)
 - iii. Ions (e.g., sulfate, nitrate, ammonium)
 - iv. Organic compounds (e.g., polycyclic aromatic hydrocarbons)
- b. Application of advanced analytical techniques such as XRF, ICP-MS, Ion Chromatography, and GC-MS as appropriate.

3. Data Quality Assurance/Quality Control (QA/QC):

- a. Implementation of QA/QC procedures including calibration, blank samples, duplicate samples, and standard reference materials.
- b. Validation and verification of chemical data to ensure accuracy and reliability.

4. Source Apportionment Support:

- a. Provision of chemical speciation data to support receptor modelling and source apportionment studies.
- b. Collaboration with modelling teams to integrate chemical profiles into dispersion and receptor models.

5. Reporting:

- a. Preparation of comprehensive reports detailing sampling methodology, analytical procedures, data interpretation, and key findings.
- b. Presentation of chemical profiles highlighting major pollutant species and their likely sources.

Financial Proposal Content

- 1. The proposal should be complete, i.e., it should list all costs associated with the Assignment.
- 2. The Financial Proposal should identify, as a separate amount, the local taxes duties, fees, levies, and other charges imposed under the applicable law, on the consultants and their personnel.
- 3. The financial proposal should be prepared in Indian Rupees.

We confirm with our acceptance to the technical specification as given above.
