Next Generation Digital Forensics Bootcamp : Web Application and Mobile Devices

5th - 9th October, 2026 (Hybrid Mode)

Objective :

The objective of this bootcamp is to provide participants with comprehensive knowledge and practical exposure to modern digital forensics, with a special focus on web applications and mobile devices. The programme aims to enhance participants' understanding of digital evidence, forensic investigation methodologies, data acquisition, analysis, and evidence preservation. Through expert-led sessions and practical activities, participants will gain exposure to relevant forensic tools and real-world investigation scenarios.

Registration Details :

- The participants to the course will be UG/PG students.
- There is no Registration fee
- Seats are limited.
