

Maulana Azad National Institute of Technology (MANIT), Bhopal successfully conducted the Internal Hackathon for the recommendation and selection of student teams for Smart India Hackathon (SIH) 2026 on 7th and 8th September 2026 at Department of Computer Science and Engineering.

The Internal Hackathon provided a structured platform for participating student teams to present and demonstrate their solutions to the problem statements released under SIH 2026. The projects were evaluated by the jury members as part of the process for recommending and selecting teams for participation in the National Smart India Hackathon 2026.

The event witnessed enthusiastic participation from 151 teams comprising 906 students, reflecting the institute's continued commitment to fostering innovation, problem-solving, and technology-driven solutions among students. This event is coordinated by Dr. Vikram Garg and Dr. Mitul Kumar Ahirwal (Department of Computer Science and Engineering)

Glimpse of Internal Hackathon SIH 2026
